## Briefly about me

I am a driven and highly responsible individual who always has a smile on my face. My friends often describe me as positive, outgoing, helpful, genuine, kind and loyal. Having the opportunity to work with you would be incredibly exiting and educational for me. I am confident that my qualities would fit well contribute to a positive work environment at your company. I am looking forward to being part of your team.

## Experience

Summer Intern

2024-06-01 ➡ 2024-06-28

**Volvo Group, Göteborg**

I continued working on my two projects as a summer intern in the Solution Architecture department at Volvo GTT. I was also entrusted to participate in a filmed interview, where a colleague and I shared our experiences from Teknicsprånget / Technology Leap in order to inspire the next generation of interns at Volvo Group.

Tekniksprånget

2024-02-05 ➡ 2024-05-31

**Volvo Group, Göteborg**

At Teknicsprånget / Technology Leap, I worked in the Solution Architecture department at Volvo Group Trucks Technology (GTT). They are responsible

for developing the electronic interconnectivity of truck ECUs. ECUs are various computers installed in the truck that control the truck's different functions. I participated in two different projects, to gain engineering experience. During our time as Tekniksprånget / Technology Leap interns, we conducted over 50 study visits to various companies in order to gain broader insights into the engineering profession.

Store Cashier 2023-06-12 ➡ 2024-01-31

**ICA Maxi Stormarknad, Trollhättan**

Store Cashier 2022-06-13 ➡ 2022-08-31

**ICA Maxi Stormarknad, Trollhättan**

Store Cashier 2021-07-05 ➡ 2021-07-18

**ICA Supermarket Kronan, Mellerud**

During my employment at ICA, I had various responsibilities. I started at the checkout but also worked with stocking in the dairy, fruit, and vegetable departments, as well as at the front cashier line. Through these roles, I gained broad experience and learned how to best assist and interact with customers. I realized the importance of attentiveness and adaptability and developed my ability to handle stressful situations. In my final position, I took on greater responsibilities by assisting with self-checkout and postal handling at the service desk.

**References/certificates are on request.**

## Education

**University** 2024 - now

**Global Systems**

Degree of Master of Science in Engineering, **Chalmers University of Technology**

The Master of Science in Engineering program in Global Systems focuses on training engineers capable of analyzing and addressing complex global challenges. It combines engineering, natural sciences, and social sciences to develop solutions for a sustainable future. The program provides skills for systematic and interdisciplinary thinking to understand the interplay between technology, society, and the environment. Emphasis is placed on topics such as energy, climate change, and resource efficiency, with the education designed to meet both local and global needs.

High School

2020 - 2023

**Nils Ericsgymnasiet**

Natural Science Program (Merit Score: 20,99/22,5)

Elementary School

2011 - 2020

**Björndalsskolan/Paradisskolan**

(Merit Score: 300/340)

Online School
