[Victor Stommendal](#)

Skills

- Programming: Python
- Data Analysis & Visualization
- Systems Modeling
- IP & Patent Analysis
- Power BI / Excel

Languages

Swedish – Native
English – Fluent

Additional Qualifications

- Category B Driver's License
- Founder and Board Member of Trollhättan Squash Association (TSF)
- Student Council Representative (2021)

Profile

Master's student in Engineering Physics and Global Systems at Chalmers University of Technology with experience from industrial engineering environments at Volvo Group and GKN Aerospace. Experienced in data analysis, visualization, and technical mapping within IP and systems architecture. Motivated by problem-solving, systems thinking, and the role of technology in sustainable development.

Professional Experience

GKN Aerospace Sweden AB, Trollhättan 2025-06-11 – 2025-08-31
Engineering Intern

- Conducted patent searches using Patsnap to map the IP landscape of leading competitors.
- Analyzed technology trends and competing solutions within the aerospace industry.
- Developed an interactive Power BI dashboard for visualization of IP data.

Volvo Group, Gothenburg 2024-06-01 – 2024-06-28
Summer Employee

- Continued work on two engineering projects initiated during the Teknicsprånget internship.

Volvo Group, Gothenburg 2024-02-05 – 2024-05-31
Teknicsprånget Engineering Internship

- Participated in two engineering projects within Solution Architecture (GTT).
- Worked with system-level understanding of ECU architecture in heavy-duty trucks.
- Featured in a promotional interview for Volvo Group to inspire future Teknicsprånget participants.
- Participated in more than 50 company visits to gain insight into different engineering disciplines and industries.

ICA Maxi, Trollhättan / ICA Supermarket, Mellerud 2021 – 2024
Retail Assistant

- Summer employment.
- Provided customer service in a fast-paced environment.
- Shelf stocking and store operations.
- Responsible for self-checkout assistance and postal services.

References and employment certificates are available upon request.

Education

Chalmers University of Technology 2024 – Present
M.Sc. in Engineering – Global Systems

- Interdisciplinary engineering program combining mathematics, natural sciences, systems thinking, modeling, data analysis, and sustainable development through project-based learning.

Nils Ericson Upper Secondary School 2020 – 2023
Natural Science Programme

- Final grade score: 20.99/22.5

Björndalsskolan / Paradisskolan 2011 – 2020
Compulsory School

- Final grade score: 300/340
