[Victor Stommendal](#)

Skills

- Programming: Python
- Data analysis & visualization
- System modelling
- IP & patent analysis
- Power BI / Excel

Languages

Swedish – Native
English – Fluent

Additional Qualifications

- B driver's license
- Founder and board member of Trollhättan Squash Club (TSF)
- Program council representative (2021)

Profile

MSc Engineering student in Global Systems at Chalmers University of Technology with experience from industrial technology environments at Volvo Group and GKN Aerospace. Experienced in data analysis, visualization, and technical mapping within intellectual property and system architecture. Motivated by problem-solving, systems thinking, and the role of technology in sustainable societal development.

Work Experience

GKN Aerospace Sweden AB, Trollhättan 2026-06-15 – 2026-08-14
Engineering Intern

- Conducted a literature review on thermal management in military and civilian aircraft, focusing on waste heat and thermal loads.
- Investigated waste heat generated by major heat sources, including gearboxes, electric motors, power electronics, and batteries.
- Analyzed thermal loads throughout the flight cycle and mapped heat flows from heat sources to heat sinks.

GKN Aerospace Sweden AB, Trollhättan 2025-06-11 – 2025-08-31
Engineering Intern

- Conducted patent searches using Patsnap to map the IP landscape of leading competitors.
- Analyzed technology trends and competing solutions within the aerospace industry.
- Developed an interactive Power BI report for visualization of IP data.

Volvo Group, Gothenburg 2024-06-01 – 2024-06-28
Summer Employee

- Continued work on two technical projects initiated during Tekniskprången.

Volvo Group, Gothenburg 2024-02-05 – 2024-05-31
Tekniskprången Engineering Trainee

- Participated in two technical projects within Solution Architecture (GTT).
- Developed understanding of system architecture related to truck ECU systems.
- Participated in a filmed interview for Volvo Group aimed at inspiring future engineering students.
- During my time as a Tekniskprången trainee, I participated in more than 50 company visits to well-known organizations to explore the diversity of engineering careers.

ICA Maxi Supermarket, Trollhättan / ICA Supermarket, Mellerud 2021 – 2024

Store Assistant

- Seasonal employment alongside studies, including customer service and store operations.

References and employment certificates are available upon request.

Education

Chalmers University of Technology 2024 – Present
Master of Science in Engineering – Global Systems

- Global Systems is an engineering program at Chalmers combining scientific foundations with project-based learning in systems thinking, modelling, data analysis, and sustainable solutions to societal challenges.

Nils Ericson Upper Secondary School 2020 – 2023
Natural Science Programme

- Grade average: 20.99/22.5
